

Peer Support Register

I am sure we have all found ourselves in the position, at some point during our careers, when we could do with some back-up. The purpose of the Peer Support Register is for colleagues to volunteer be placed on a register that matches a particular skill set / experience in the following areas. In doing so, you will be agreeing to be called upon to support colleagues from other sports. It could be that someone needs an independent to support a safeguarding case or just having a call with a chair from a different sport to bounce some ideas off. We will manage the registers on a rotational basis, as not to over burden any one person on the register. We believe that this will help to upskill colleagues, save money on employing independent experts (when often we already have this expertise in another sport) and to provide a supported environment to help new colleague to flourish.

In the first instance, the following registers will be created. Please could you let me know if you are happy to be placed on a register, based on your skills and experience in that particular area.

- Safeguarding case management panels
- Disciplinary reviews
- Dispute resolutions
- CEO peer support
- Chair peer support
